## "Monkey Bars"

This record is particulary for then youngsters...  
Now you get right to the procedure

Now what do you like the most about this  
Conflict, Consequence, constant evidence  
A classic contact communicator confrence  
Weither 5 or 6 weither a number misprint  
Or if it seems that, you heard above 4  
If you thought that you would never hear it no more  
You should never dial commin runnin murda mile  
Cause it's all about ya health (lets go)  
(wait wait)  
Now you know us but it's not the coke rush  
Four MC's so we ain't the furious  
Like the fourth mc's or the 3 from trecherous  
It's a blast from the past from the moment we bust  
But if our shit go rough, still in god we trust  
Cause it's the - comming  
Display the rhymes so stunning  
We keep ya runnin, and give a shoutout to the london  
And keep it all, and still perform till the early morn'  
Some said till dawn  
We got a word abundance, hold benz by the hundreds  
Top speed, guarenteed, we stil runnin

People master my tere-tactics  
Why you actin plastic  
Treatin all ya fans like ya matches  
We be the other pair comin' in tight the tupper wear  
Other fear, push ya luck and beware the brigadier

Yo, DJs be spinnin the records that make up the music  
So people can focus whenever the mic has been passed to me

The more drums we have in our kit, the more we can handle  
We gonna take a break here..

Lets go. wait wait still

Jump a bill A-K-I-L known to exhale when i inhale  
And you can tell when in the coo i do my duty-o  
And swung to the studio  
J-5 let the beat bounce

Thats what counts without a doubt  
so sup grab the mic and pull the magic out ya mouth  
We be the rythem kings, plus the rhyme channelings  
(I could sneer anything) Go ahead

*Sneer [repeated 21 times]*

Light emcee kay mastered fatness so we crack this  
Runnin through wall and wack this  
Yo, 2 emcees add a little um, spice  
So we concentrate on mic's and keep the path tight  
3 emcees underground and worldwide  
Surgean general on the 5 to defy the certified  
4 emcees at ya door once more  
When it rains in pours from the heavens to the earths floor  
Elements, vocal instruments super extra strength  
Hip-hop activist  
Throw yo mind no time and inner twine  
Roll with the rhymes ta let the sun rise  
You should know, when we flow, you get what ya lookin for  
Terrorize ya enterprise  
And we dont shoot until we see the whites in ya eyes

Non-stop, real rhyme rockin  
Disc jockeys out record shoppin'  
Writers doin graphs so bring ya pop lockin'  
We incorporate the whole of hip hoppin', non-stop

Non-stop, we keep it up to par  
from the metal monkey bars to conquer school yards  
It's like bein arabic, comin from right to left  
It's hot to def so take a breath and (wait wait)

*[Applause + Laughter]*

Ya. Get the fuck, this fo entertainment  
This made to stoppin the day  
Pop pop pop...
